OKEECHOBEE LAND 4th FIREWORKS

"Isms," Apathy and Ignorance Cited As Enemies of Freedom

PAHOKEE — Residents from all sections of Okeechobee land witnessed one of the most spectacular Fourth of July fireworks displays ever seen on the lake Wednesday night at Pahokee Harbor.

Sponsored by the Pahokee Chamber of Commerce, the Fourth drew a crowd estimated at from 2,000 to 3,000 persons.

Considered to be an especially big turnout in view of inclement weather that marred the holiday.

In a brief program preceding the fireworks, James Vann, executive director of Pahokee Housing Authority, delivered the Independence Day address, an oration on "Isms, Ignorance and Apathy."

He said the "isms" — fascism, nazism and communism — "promise so much but deliver so little, and pay off in human misery."

Vann said the "only ism" for which we have room is Americanism, and cited other "isms" as enemies to our way of life and the system of free enterprise upon which it is based.

Illustrating apathy, Vann quoted from a pre-sentencing speech Judge Pearson made at the conclusion of the T. Harold Williams trial recent at which the former county solicitor pleaded guilty to misconduct in office.

For ignorance, Vann said foreign "isms" must be studied by Americans so problems they present can be fully understood and in order that their tenets can be subjected to the "white light of truth" and discounted intelligently.

Entertainment was presented by Pahokee's famous Uptown Quartet, whose vocal efforts competed with the fireworks exploded by youngsters. Master of ceremonies was Leonard Dobrow.

Back to the poodles.

Life has been going very well indeed, which should have been the tipoff. Fat and healthy from Arizona, wearing a new Las Vegas silver dollar on my collar (just ask 'em at the Sahara if they know Schatz), I roared in to the Monterey Peninsula loaded for beans.

After a chilling night's sleep — from 115 degrees in the desert to 65 degrees here — I settled myself in my new friend Mimi Jordan's car. My new friend Mimi Jordan's junior poodle, the one named Reni, growled only slightly and I replied in kind.

Nothing like a tone of quiet menace to settle a great quiet dog wearing a toupee.

Everything was going along swimmingly. I viewed the White Tree, the Ghost Tree, and watched a man dig a square yard of divots on Bing Crosby's favorite tournament course.

With that feeling of well-being which can only be engendered by having somebody say that that cute dachshund, I was really living it up.

Then Zebebe, the black poodle, appeared out of nowhere. Only Pore's Raven could have startled me more. And that raven didn't have teeth like a kingfisher, either.

With a roar, she hurled herself through the car window. Who do you think you are and what are you doing here she snarled. Fair in a lather, she was.

Ah'm just little old visiting dog from Florida — mumbled mellifluously, hastily pawing down the hair on the back of my neck.

The times to be brave are when I get the first bark in — and this wasn't the time.

The white poodle Reni, whom I thought I had silenced with my earlier suave growl, suddenly took a hair from the dog that would bite me, and also snarled.

I knew, then, that I'd had it. I leapt ashore, around Zebebe, evaded Reni, and took off across the golf course.

The rest of the Peninsula I have seen from the back of those little electric ice-carts (they move too slowly for poodles).

And tomorrow I am going to Reno to divorce myself from nightmares about large, glistening white poodle teeth.

The members of the Canal Point Methodist Church have planned a covered dish supper on July 11, at 6:30 p.m., in the Sunday School rooms in honor of their new pastor and his family.

HEAR YE, HEAR YE! — Graduates of the Glades' second De Cade public speaking course held a celebration dinner last week at Clewiston Inn. Pictured above are members of the class, most of them residents of Pahokee and Belle Glade. Since the arrangement above defines orderly identification, we'll leave it to you to pick out your friends and neighbors who now are masters of the art of public oratory.

NO BEEF ON \$S'S BUT SALES LAG

BELLE GLADE — An "extreme demand" existed this week at Glades Livestock Market as only 950 head of cattle were sold Monday at the sales arena, according to George C. Young, manager.

Demand was much higher than supply as Young urged cattlemen to take advantage of the market's "pen-let" sales procedure.

Dollar volume of the Monday sale was \$70,549.72, with 101 calves, 132 heifers, 17 yearlings, 225 cows, 442 steers, 33 bulls.

BG BUILDING SLOWS UP

BELLE GLADE — Building permits issued by the City of Belle Glade during the first six months placed a total valuation on new construction at \$626,567, according to data released this week by W. L. Cunningham, sr., building inspector.

While the six months total was considerably under the \$755,420 total for the comparable period of 1955, private dwelling construction was at about as high a level this year as last.

Last month's permits were \$89,950 in valuations, as compared with \$185,585 in June, 1955, when a permit for a \$91,000 school construction was included.

Included in last month's permits were the following new homes: Shelley Pouncey, 625 SW 6th St.; Charles W. Godwin, 101 NW Ave. H Place; Jack Wilkerson, 549 SW 7th St.; C. L. 115-Unit Housing Plan Assured For Pahokee

PAHOKEE — Positive action by the federal Public Housing Administration over the weekend makes almost certain that the construction of two major housing projects involving 115 new family low-rent units for the Pahokee Housing Authority will begin about January 1, 1957, according to James Vann, executive director of the local PHA.

Vann was notified by the Florida congressional delegation of Senators Holland and Smathers and Rep. Paul Rogers that the federal PHA would enter into an "annual contributions contract" with Pahokee Housing Authority.

This step provides for annual federal contribution of funds to Pahokee in the amount up to but not exceeding debt service on bonds to be issued for the project by the local PHA, Vann said. In effect, it guarantees financial stability to the project and makes purchase of Pahokee Housing Authority's bonds, which are to be issued, desirable.

The low-rent housing project will have a major impact on Pahokee's economy, Vann predicted. Estimated cost for the two projects is \$1,128,936. If legal red tape can be cut so construction starts about the first of the year, it is believed the new housing units will be ready for occupancy before influx of labor for the 1957-58 winter season, the director said.

White & Negro Units

Land for the two new housing projects has not been purchased, but the sites are selected tentatively and options taken on most lots, Vann said. The white project will be located immediately south of SE 4th St. on a front extending from Lake Ave. east to about 26th St. Estimated cost of this development is \$581,110, providing for 40 family units—4 one-bedroom, 16 two-bedroom, 16 three-bedroom and 4 four-bedroom units.

The 75 Negro units will be located on a triangular 16-acre plot immediately south and west of the junction of McClure Road and Rardin Ave. It would provide for 17 one-bedroom, 26 two-bedroom, 23 three-bedroom and 6 four-bedroom units.

Vann said the housing units will be one-story duplexes and each unit will be equipped with kitchen range, refrigerator, space heater and water heater. Each will have a living room, combination kitchen and dining room, a bathroom and storage room.

Rental costs have not been determined but will be established on a percentage of family incomes. Families now living in public housing will be eligible to live in the new projects.

Construction of the new housing units will be the first by any housing authority in the Glades, Vann said, as existing public housing was built by the federal department of agriculture administration.

Vann said the Pahokee Housing Authority has worked toward getting approval for the new housing units since 1951. Currently serving as members of the local PHA are J. P. Waddell, chairman; Roy Vandegrift, Jr., vice chairman; Leonard Doherty, secretary-treasurer; and Albert Fremd and Robert Aepelgren.

THE BETTER WAY TO CONTROL BACTERIAL SPOT OF TOMATOES AND PEPPERS

Phytomycin the new liquid antibiotic

GET GREATLY INCREASED, BETTER QUALITY YIELDS

Phytomycin, manufactured by our E. R. Squibb & Sons Division, has proved the outstanding control for certain bacterial and fungus diseases of tomatoes, peppers, tobacco, fruit, potatoes and walnuts. Keep pace. Use the new, better way to control disease.

Phytomycin—

- Completely disperses in the spray mix to form a true solution (unlike wettable powders)
- Forms a better and more uniform mixture (than wettable powders)
- Does not cake (as do wettable powders)
